## Hardy Fruit & Veggie Plants

# 50% off

Choose from:  
Strawberries, Blueberries, Rhubarb, Grapes and Asparagus

### Why plant strawberries now?

By planting a strawberry bed in the early fall months, the plants are able to establish themselves and their roots prior to winter. Then, as the temperatures rise in late winter or early spring, the fully-rooted and more mature plants are quick to set out foliage, flower stalks AND lots of strawberries!

## Fabulous Fall Mums
